Prez Sez

Well here it is again, time for Pres Sez. This month I'd like to talk a little about insurance. In the May issue of Model Aviation on page 80 there was a great article titled "Born to Fly" by Jim Graham. The name of the Article was "Protect your hobby from fire." If you still have your issue, I would sure recommend that you read it. The crux of the whole thing is to be sure if you have a fire and all of your airplanes and all the related items go up in a blaze, are they covered. It seems that some insurance companies do not cover items that are considered a hobby.

My insurance company, fortunately, did cover my hobby when I had my fire. It would sure be worth the time to call your insurance co. and check to see if your hobby is covered and if it isn't, find out what it would take to get it covered.

One other thing about our "Model Aviation" magazine by AMA I would like to mention. I've heard opinions from a lot of my fellow modelers both good and bad. I personally think AMA does a terrific job. I'm one of those modelers that read it cover to cover, even the articles about u-control.

At the last meeting I was suppose to investigate how to get a rule instituted on the members who fly on the frequency 2.4 to put their membership cards up on the board and I had been sick the week before and just didn't get a chance to do it. Well, I had the chance this last week and came to a conclusion that our constitution and flying and safety rules could stand a little overhaul and updating. We will discuss this at the next meeting.

See you at the next meeting (6/9/11), and bring something to fly.

Paul (The R/C Nut)

Meeting Schedule

Meeting Dates Remaining in 2011:

Jun 9, Jul 14, Aug 11, Sep 8, Oct 13, Nov 10, Dec 8

Meeting Time:

7 to 9 pm.
