I just got back from the Toledo show, but I didn't see anyone from our club there. Perhaps we just missed each other. This year the big deal was the FPV (First Person View) systems that allow the pilot to see a view from the aircraft, either through goggles or on a screen attached to the transmitter. They had for the last two or three years, but this year they are smaller, lighter and better resolution.

Everywhere I looked I also saw quad /hex copters, from micro size up to two-motors-per-arm (8 motors total) beasts that could pick up a small dog.

I hope many of you have been able to get out to the flying field.

May's meeting is planned to be held at the flying field. The meeting this Thursday (April 10<sup>th</sup>) will still be held in the room next to the hobby shop.

Hope to see you at the next meeting.

Richard

Pierre came out one day and found that the gates had been left open. Members were also asked to make sure both gates are closed and locked by the last person leaving the field. Our president said that he would ask Pierre if he needed any help on the Field Committee.

John Bouchillon, our web master said that on the web site he would eliminate the names of members that have not paid their dues. He asked members to make sure their email addresses are updated. It was mentioned that there is a club membership limitation written in the bylaws that must not be exceeded.
